Losses Will Fall Most Severely On the Farmers.

Stockton, Cal., Jan. 4.—The fire which devoured the warehouses of the Farmers' Union and Milling company this merning, was a most destructive one.

The warehouses were well filled with grain, for both the Union and its clients grain, for both the Union and its clients have been among those who were waiting for the price of wheat to advance. The lowest estimate on the amount of wheat destroyed is 10,000 tons, and many put it higher. This was beside considerable barley and rye.

Much of the grain was the property of the Union, but by far the larger part was held on storage by farmers.

The loss is placed at more than \$500,000, though the territory covered by the firm was not large. The loss on the warehouses will be heavy, though both warehouses will be heavy, though both

> In connection with the selection of Arthur Pratt for chief of police, a well known Democrat arises in his place to say that it is apparent that the place to say that it is apparent that the interests of well known officials of the Mormon church is being brought to agents earned over \$1,500 in it. The International Nursery Co., Denver, Colo. city council in behalf of the appointee. This Democrat, by the way, is a mem-ber of the Mormon church, and he states his position as follows:

"I know from personal information that several officials have urged one or two members to vote for the confirma-tion of Mr. Pratt. To them I have a suggestion to make. It is this: When one of those approaches a councilman to say that Pratt should be confirmed, the reply should be: Are you advising me as a citizen, working in politics, or, are you telling me what to do by virare you telling me what to do by virture of the authority you hold in the
church? That is the proper plan to
pursue. If the answer is that the worker
is enguged as a citizen solely, then the
member of the council ought not have
any hesitation in differing; if it is as
a church official, then the member
should investigate and see if reveiation
has ordered the confirmation of this
man who has held office during the last
20 years, who has never been of any 20 years, who has never been of any account to himself in a financial way when he wasn't holding office; was drawn pay for work he has never formed; who has been an expense t formed; who has been an expense to the city ever since he was elected city marshal and appointed as chief of police."

Another point made is that this sort of work is disgusting some prominent and conscientious church people, and is likely to act as a boomerang.

From now on until the council re-enacts the ordinance fixing the police department on the old lines, Fratt will be working day and night. Every resource, and he is prolific, will be ex-

t off the tables.
